The next evolution

The next evolution

Who are we?

Evocom is a multi-national enterprise delivering high quality, cost effective signage solutions.

Our core business is the manufacture, logistics and installation of corporate signage. For more than a decade, we have concentrated on servicing the petroleum industry within the Oceania region, continuously improving our systems, developing our expertise and strengthening our capacity.

The wealth of experience gained from this high risk and technically difficult industry, has given us a solid foundation to move forward and successfully collaborate with a wider range of customers in the full spectrum of petroleum, retail, and industrial markets.

Striving for excellence in planning, management and execution, we work through the full life cycle of a project to deliver a complete solution for your signage needs.

Our mission

Quality and cost effective solutions, delivered on time with professionalism, discipline and care.

Evocom's extensive experience and dynamic forward focused approach ensures we are at the forefront of our industry.

In the ever changing environments and markets in which we operate – we are the next evolution.

Why evocom?

EXPERIENCE

Evocom has significant historical and proven experience in providing quality signage solutions to corporate customers throughout Australia and New Zealand.

This experience has been gained from the varied roles of our staff over the past ten years, while practical experience at management level ensures a comprehensive knowledge of all aspects of the signage industry.

We promise customers a pragmatic approach to all projects, based on our

in-depth understanding of signage procurement and manufacture, brand visibility programs, international logistics and the many related disciplines.

Technically proficient and experienced project managers oversee every aspect of projects to minimise the risk and maximise the opportunities.

PURPOSE

Evocom was established as a corporate signage specialist and has since maintained absolute focus on that discipline.

Our experienced industry proficiency adds value, while our end-to-end approach ensures both flexibility and continuity to the delivery of your signage solution. Our clients have one point of contact, accountable for complete management of your signage needs.

Evocom prides itself on providing a consistently high standard of work, delivered with cost and time efficiencies, while minimising project risks.

MANUFACTURING CAPACITY

Evocom has the flexibility of both local and international manufacturing capabilities. Each project is assessed and allocated according to its scope and scale to achieve maximum efficiencies in time, cost and quality.

Evocom's fully equipped and operational warehouses are located in Melbourne, Australia and Tauranga, New Zealand - both within easy reach of port facilities. We also have storage capability at our depots in Brisbane, Sydney and Perth.

The next

Through our Global manufacturing partner Hexagon, we have the ability to deliver cost effective, mass production for large national rollout projects. This includes electronic LED's, monoliths, ACM fascia and illuminated signage, fibreglass moulding and interior joinery. Hexagon group currently supply signage and retail product to blue chip companies globally.

Our Asset Management software was designed in-house, specifically for signage stock management and tracking. It integrates multiple databases and generates a range of reports for inventory, compliance and business analysis.

RISK MANAGEMENT

Evocom effectively collaborates with clients to minimise your project concerns:

- Minimise risk of site incidents
- Minimise risk of project timeline breaches
- Minimise risk of cost over-runs
- Minimise risk of stock wastage
- Minimise risk of non-brand compliance
- Minimise risk of rework

Comprehensive project documentation and ongoing management review ensures Evocom's high standards are maintained throughout every aspect of delivering your project, minimising your risk and ensuring a quality product is delivered on time and to budget.

evolution

Our people

THE EVOCOM TEAM IS MULTI-DISCIPLINED, PROFESSIONAL AND CAREFULLY CHOSEN

All our team members, from senior management to installation, share our pride and passion for achieving optimum results. For us, it's all about getting it right the first time.

Our sub-contractors are all individually approved, accredited and inducted. They are regularly audited for on-site workmanship quality, safety, and general company administration to ensure they maintain Evocom's high standards.

Whether in the office, in the warehouse, or on-site, we are committed to achieving outstanding results for all our clients.

WHAT DO WE DO?

Evocom provides a full spectrum of services related to signage projects including:

- project management
- prototyping
- site specific surveys
- design integration
- approvals/permits
- engineering
- manufacture
- warehousing
- logistics
- national installation
- maintenance
- asset management
- QA completion reports
- online image portfolio

From full corporate rebrand to painting and maintenance, we manage your signage assets with experience, expertise and care.

HEALTH AND SAFETY

Our Health, Safety and Environment systems have been developed to meet the most stringent standards of accreditation demanded by the petroleum industry.

We are fully accredited to the Australian Institute of Petroleum (AIP).
